

Sim/Tech Filter Introduces The All-In-One A1-Vault

The A1-Vault is a multi-faceted unit for the filtration of water in either pump or gravity flow systems. The A-1 can be used for many different applications including, but not limited to: onsite wastewater, cisterns, pet kennels, and car washes. Below are a few of the features of the All-in-One A1 vault.

- ◆ **Cleaning of the A1 is done without having to remove and disassemble it**
- ◆ **Cleaning can be performed while the A1 is in operation.**
- ◆ **The filtration size of the A1 is easily changed. (standard unit filters to less than 1/16")**
- ◆ **Other Sim/Tech filtration technology such as the bristle filter (STF-110 series) and pressure filter (STF-100 series) can be easily incorporated**
- ◆ **External filtration allows debris to slough off into tank and not accumulate inside of the A1**
- ◆ **The base height of the A1 can be easily adjusted with the addition of standard 4" sewer & drain or SDR35 pipe or it can be hung in the tank**
- ◆ **Low water shut-off switch available for pump shutdown**
- ◆ **Filters can be added up to any height**
